HAMPDEN-SYDNEY COLLEGE

HAMPDEN-SYDNEY, VIRGINIA

OFFICE OF THE PRESIDENT

March 16, 1928

Mr. D. C. Collier
Athens, Georgia

Dear Mr. Collier:

I have your letter of the 12th. A letter from Mr. J. C. Collier came the day after yours, sending me some Booker data.

I believe the best plan as to the Vines Collier data is to have photostat copies made in Richmond, and send you these. There will be three, and possibly four of these copies, and they will cost you about 30 to 40 cents each. This is just as good as the copying and the notary's signature, and will cost little, if any, more. I expect to go to Richmond in the near future; shall I have this done for you?

I found that Vines Collier furnished supplies to the American army; and this is sufficient ground on which to enter the S.A.R. on his name. I found these records in some loose papers in the Brunswick County files. I am very glad to have been able to be of service to you in this quest.

I may be in Georgia next summer; and if so, will look you up. I have a relative in Mrs. Horace Holden of Athens, and two friends and college mates in Dr. W. H. Bocock and Prof. W. D. Hooper of the University of Georgia.

Very sincerely yours,

D. D. Tredway
